Corporate Wines Announcement

Press Release

IF YOU LIKE WINE IN MA WE RECOMMEND THAT YOU DO NOT VOTE FOR MARTHA COAKLEY ON TUESDAY JANUARY 19, 2010!

WHY, because she defended the Commonwealth in a case before US District Court and US Court of Appeals that involved direct shipments of wine to the consumer. The commonwealth was the defendant and they oppose direct shipping of wine to the consumer.

This case only benefited a couple of wholesalers in MA. One of these wholesalers paid over \$1,000,000 to lobbyist to have state officials change law in 2006 and fight case before US District Court. With Coakley defending this case, especially at appeals level, was a slap in the face of every wine consumer in MA.

Why doesn't AG's office go after these few wholesalers for price fixing and anti-trust violations (one wholesaler controls over 63% of the wine market in MA)? Because, these few wholesalers pay big money to people like Coakley (part of

Democratic Machine)and she is not about to upset the apple cart. Again if these laws were enforced, these types of issues wouldl only help the consumer in MA, but the AG and other state officials look the other way.

Coakley is in bed with big business and a good example of this was last weekend when she was in Washington, DC attending a large healthcare conference full of lobbyist! You know the one, it is the one that she claimed she did not witness a person being thrown to the ground, but a picture shows her looking at person on the ground with one of her goons over him! see below.

We ask that you VOTE on Tuesday January 19, 2010, but do not throw a bone to Coakley. She will only hurt the consumer and taxpayer in MA, as she has proven time and time again.
