In the portion of law where no law exists for or against the doing of things

The not so well laid plan of the mouse

But when a long train of abuses and usurpations, pursuing invariably the same object evinces a design to reduce them under absolute disparagement of memberships, it is their right, it is their duty, to throw off such government, and to provide new guards for their future security.

I choose not to throw off what we already had/have. But to set a New Guard.

There is a sovereign portion of our civil government which belongs to Conventions of the People ourselves and is secured to our posterity.

That Sphere of Action was an empty void, a vault where the Blessings of Liberty were stored.

Offices were set up in the Federal and State spheres of action and no laws were made to prohibit the People from setting one up in the Peoples sphere of action. Nor could servants make a law...

American Trinity = Federal / State / People, but honor was the only guard put on the vault.

NOW honor having failed in the hearts of our servants, replaced with taking of legal property by levying force of arms without asking by due process of law, even to use the law to disparage

the values of memberships in our society.

The People chair in congress was at first placed into the people sphere of action; it became the property of the people not under the authority of congress, no conventions have spoken on giving up the chair so it was never legally removed and still holds legal sway.

The fundamental rules of law say that the use of arbitrary power by the powers that be, to take the legal possessions of the American citizens out of the vault without asking by due process of law is the constitutional act of levying war on them.

A state of war exists within the Civil government of the United States, gunmen are being levied to treason against the civil government of America.

I Guard Thomas have claimed the Federal authority for the People to set up the Office of the Chairperson for the Peoples sphere of Action, and reclaimed the peoples chair in congress. With the pseudo voice of the employer, on the floor of congress.

When the powers that be created the corporate image of predatory man in their own image they set all of the presidents needed to make the peoples claim as employer, by paying all the bills for society in both blood and money.

The Legislators at all levels of government have stolen from the Peoples vault with the power of treason for too long now.... They and their levied gunmen deserve death.... However WE should not become like these devil possessed enemies of the laws of our land.

Therefore I seated a new Guard.

In the portion of law where no law exists for or against doing of things, in the office of the Supreme court and on the Executive desk of the United States In July of 2013

The Peoples Chair was reclaimed and stands until an open court says I broke a law.

I claim that under the fundamental rules of law, from the foundations of this nation, the use of arbitrary power to pilfer by usurpation, from the vault holding all of the things that people can freely do while going about their liberties, has been legally considered as the constitutional act of levying war on civil government. Taking by levying gunmen to arm rob the American People.

So Kate, let me get this straight, it's time for the militia guys to go home, but you were obviously not interested in upholding the United States Constitution. The BLM can really just steal peoples land? The U.S. Attorney's Office can call a family and threaten to murder them if they don't give up their land, and you're not concerned with this? The Harney County Sheriff isn't willing to provide his oath and fulfill it. That's domestic terrorism, and now you are a conspirator in a murder. That guy was already on the ground when they shot him. Do you really want a fucking Waco hear in your state or Oregon, which by the way you weren't even fucking voted for, we got stuck with your ass may I remind you. You are in a real shit storm here because what your actions are showing is the government can break any and all law, alienate inalienable rights whenever the fuck they want and if anybody does anything about it we will shoot to kill and use tax payer dollars to destroy them. That's what you're telling me as a citizen. I mean the dollars going to collapse. I mean in the cities like Portland when it collapses do you have any fucking idea what's going to happen? The military combined with your law enforcement entities won't be able to stop the protests and the violence and all of it. It's impossible and those people won't even be fucking armed. What are you going to do all over the state if you start a fucking civil war? You stupid, stupid bitch. There is no more free Waco. This is 2016 lady. Your FBI terrorists and OSPM is going to get away with this. You think the American people are just going to lay over? They know what it is now, it's being murdered and destroyed and give up everything or fill in the blank. How many times can you put a tiger in a cage and poke him in the ass with a stick before he busts out of that damn cage. Very foolish move, very foolish. Good luck.

Thanks, [REDACTED] We can talk more next week; however, in the meantime, below is a Facebook post concerning a potential threat against LE in response to the shooting:

 [REDACTED] am offering a 'REWARD'. To start with, I am offering a 'REWARD' of \$1,000 for any information leading up to and the capture of the Domestic Terrorist/Terrorists that shot an unarmed American Patriot named Lavoy Finicum. Every week I will increase the 'REWARD' amount until the Domestic Terrorist/Terrorists are found and held accountable for killing an unarmed American Patriot.

**[REDACTED] TO FINICUM GUNMEN: BEG FOR AN
INDICTMENT!**

**Lost in the maze of charge, counter charge, and speculation
regarding what appears to be the Execution of LaVoy Finicum
is one undeniable fact:**

None of us knows what really happened at the Finicum shooting,

the government produced drone film of the event notwithstanding. So, on March 4, 2016 we are going to hold a Justice for LaVoy Rally in Tucson Arizona, in front of the U.S. District Court, to hold federal officials employed therein personally liable for what appears to be Finicum's execution. Now, none of you has a clue as to what I mean. But I do. The rest of you can come to the rally on March 4, 2016 and find out. Meanwhile, all sorts of mystery and spin have clouded what few facts we actually know about the shooting. Oregon authorities have added to the confusion by refusing to re-lease the names of the gunmen. They are right to be afraid the men might be shot down like dogs. Just like Finicum. I don't Know for Sure, but I will bet that even now "patriots" are polishing 30-06 rounds (I know ex-military types highly proficient with the 50 caliber round) vowing to "make a name for themselves,"eager for history to record them as "the man who took the shooters down."

So, if I was a member of the crew who "took down" LaVoy Finicum. I would know this: no matter where you hide, you and your families will be exposed.

Your ONLY hope is for " justice" to prevail. If I was you I would frog-march my sorry ass down and throw myself at the feet of the nearest U.S. Attorney and beg, literally beg for an indictment and a trial. Because; until you are tried and acquitted in your community by a jury of your peers, your lives will continue to be worth less than a bucket of warm spit.

Sworn members when practical please provide extra patrols in neighborhoods you know to be associated with sworn and non-sworn members.

In light of recent events, I just wanted to echo what has already been said by our leadership. Please pay extra attention to your surroundings both at the workplace and at home.

You have all heard of the scare tactics used by militia supporters in Harney County involving the following of police, government officials, and their families in an attempt to intimidate and harass. In my experience these incidents are greatly nameless, faceless, cowardly acts mostly occurring under the cover of darkness to avoid chances of confrontation.

Please consider educating your family on what to look for and to be mindful of suspicious circumstances. Avoid routine patterns or daily routines on and off-duty. As always use good judgment, remain vigilant and attempt to avoid becoming complacent.

Good Morning,

Our agency was notified that the attached individual has been posting anti-police and anti-government rhetoric on his facebook page. We were also notified that he has advocated violence against police through facebook and/or "copblock". His facebook page shows he lives in Madison, AL which I think is incorrect. In a recent facebook post, he applauds the fact that a police officer was recently killed in Seaside, OR and writes that he lives near there. [REDACTED]

[REDACTED] indicates he lives in Tillamook, Oregon. He used to live in our area in 2013 and we have a couple of incident reports on him as well as does our neighboring city, Huntsville.

I have attached his Oregon DL info from NCIC and a screenshot that was sent to us where he is advocating violence against police. His facebook page can be found under [REDACTED]

<https://www.facebook.com/> [REDACTED]

Let me know if you need more information.

Thanks and STAY SAFE,

Just an FYI,

I received a report today from [REDACTED] City PD of Madison City, Alabama. He advised he received a report of a [REDACTED] DOB/[REDACTED] posting on Facebook several violent anti-police comments. Several of the comments included killing police and expressed satisfaction over the recent death of Seaside Police Sgt. Gooding. He advised he had received the report due to [REDACTED] Facebook account stating he lived in Madison City, Alabama. He advised [REDACTED] didn't live there he lived in Tillamook County with an unknown address.

I looked at his Facebook posts and here some of his most recent posts,

"So far, as of right now, february 11, 2016, there have only been 10 pigs killed in the line of duty in america... 2 of them were accidents. This is not even close to enough, GOD DAMN it...
The pigs say there is a war on cops... guess what? whether you agree with them or not they are treating us like there is a war on cops and WE ARE FUCKING LOSING.

We need to get our god damn numbers up, people."

"kill cops because they are cops, if for no other reason... random, just walk up asking for directions and shoot them in the fucking face... let them know we will not tolerate their abuses and terrorism anymore. If they live in your neighborhood, burn their houses down, with their wives and kids after their lights go out... enough is enough"

"all cops are terrorist pieces of shit in batman costumes, even the ones in plain clothes, terrorist pieces of shit. The people will never know freedom or security until they eliminate this terrorist threat from their own communities.. truth is truth no matter who gets butthurt over it"

I have supplied a Facebook picture of him as well as a DMV photo which states he possibly lives in the Kilchis Park area. Obviously the park is closed this time of year. He is most likely transient living in the north Tillamook county area. His RMS activity [REDACTED] in September of last year. One of his most recent posts he talks about possibly being in the Rockaway Beach area. I just wanted to give everyone a heads up in case he is contacted.

Thanks

I attached the narrative from an incident that [REDACTED] had with [REDACTED] on 1/5/2016. Case# 16-0068

Contacted [REDACTED] had previously informed him not to enter the store without shoes. [REDACTED] feels he is being discriminated against regarding his choice to not wear shoes. I asked [REDACTED] if he told [REDACTED] to leave, Welsh said "yes". [REDACTED] wanted to argue the validity of not being able to enter the store without shoes right up to the point I nearly arrested him for trespass. [REDACTED] left with the understanding that if he returns, he will be arrested.

** CAUTION* [REDACTED] showed signs of wanting to physically resist any attempt to arrest him.

Nothing further.

Hi Everyone,

Please look at the attached officer safety bulletin and let me know if you think there should be any changes. Anyone with more current info on his whereabouts or hangouts, please speak up. If we know of any vehicles he may be associated with, etc, please include it in a reply back to me. I will be forwarding all this back to [REDACTED] at our GHQ (this is a draft

copy of the bulletin) and I will be requesting she forward this to [REDACTED] for a regional broadcast when a final bulletin is done.

Thanks!

We could be in a full blown shooting/burning civil war inside the US by the end of the week.

Or not. Nobody knows.

God's will be done. You know there will be retribution against individual actors, that's a given.

This is way to emotional and angry for a calm resolution is my read. Easily could spiral out of control.

Just like the FBI @ Waco and the bombing at Oklahoma City.

Tit for tat has been the historical trend in the US>

If it doesn't sort out there - cleanse itself...some OSP/BLM/FBI/Political/Judge person will be murdered in retaliation. Kate Brown needs a body guard....and I'd think Charlotte the tribal chair... Grasty... you already know the list of hate.

It's the human condition. I live by God's grace personally..... made peace with it a long time ago.

WE THE PEOPLE WANT ANSWERS, the FBI and the OSP murdered someone and I want a good explanation, you set up an illegal road block and murdered a patriot based upon his beliefs, if this is so let me know so we can set up road blocks and kill OSP and FBI because they stand against what we believe in. Worthless fucking anti-American communist bastards.

OSP/FBI forensics has that information, the shooter/ bullet accountability - in good probability.

Legislators are kind of arrogant or naive, are they not?

So, if some body makes a law that it is legal to bury certain information, does that mean that the information cannot be discovered?

Is illegal information that is to be used for an illegal purpose - going to be obtained legally to begin with? I believe the term is "Coerced".

Your OSP SWAT team has domestic day to day family safety problems going forward, and particularly if the coming widening of the arrests and political people pile on this deal.

Blood was spilled. Some are going to want to take an OSP officer for that.

Witness protection?

My view is the Oregon State Police can recover as an agency from this event. I don't know if the BLM will ever be effective again.

Officer Safety. We talked about that - the FBI/US Marshals and myself:
